

# Jessie

2000 - 2009

*With incredible sadness, we say farewell to Jessie, our iconic Golden Retriever who has been with us since our company's beginning.*

Those of you to whom we have had the pleasure of hosting in our facility may recall her faithful "tail-wagging" greeting, not forgetting her persistent nudging if you failed to give her a rub. Without exception, she always looked forward her special greeter's role.

Jessie entwined herself around our hearts. She was not only ours for life, but we were hers. Now that she is gone, her place with us is forever sacred.

It is this eulogist's belief that dogs do go to Heaven. Jessie's existence was the living spirit and breath of an Angel. You needed only to look into her eyes to experience her gentle and caring soul. Although it is with deep heartfelt mourning that I write this, it is with great thanksgiving to God for the life we knew her to have had and for His sharing her with us.
