[CHARLESTON, SC – 10/10/2011] Joey Grice has joined the electronic systems contracting company, eLifespaces, in their systems automation and engineering division. Previously with Nucor Steel, Grice developed an extensive background with industrial automation systems and electrical support. Grice has also served our country in the United States Navy in the nuclear electrical field finishing in the top of his class with the Naval Nuclear Power Program. A South Carolina native, Grice will be marketing, programming, and providing project management for commercial and industrial electronic systems including automation, control, and security.

“For the last ten years, I have followed the progress to which eLifespaces has raised the industry’s performance levels,” said Grice. “I am confident that my skill set will further expand the capabilities and expertise of eLife over other industry participants and enable us to provide customers with a superior level of service.”

About eLifespaces

Providing contracting, security and audio visual (A/V) services over two decades, the company directors and technical practitioners hold multiple licenses and certifications in the construction, low voltage cabling, electronic, security (both fire & burglar), and electrical contracting. As Design & Installation Contractors, their goal is to make the technology in your lifespaces – intuitive, invisible, and incredible. Whether its videoconferencing, ISF® Video Calibration, THX® Certified room construction, HAA® acoustic calibration or any number of other specialized requirements, let their team of Industry Certified Professional Designers and Practitioners address your technology needs. eLifespaces holds many industry awards, the most recent of which was winner in the Consumer Electronics Associations 2010 Mark of Excellence Awards in multiple categories.
