eLifespaces Continuing Commitment to Cleaning Streets in Charleston, SC

[CHARLESTON, SC – 05/30/2009] – Saturday, eLifespaces and its group of technology contracting companies, continued its commitment in assisting the South Carolina's Department of Transportation and the many other fine organizations involved in "Adopt-a-Highway." Now celebrating its 21st Anniversary (1988-2009), Adopt-a-Highway has been one of the most successful programs in combating litter along South Carolina highways ever enacted.

Beginning promptly at 7:30AM, individuals from the eLife family began sweeping the two mile stretch of King Street between Mt Pleasant Street and Summerville Avenue.

Thirty-five (35) orange bags of trash were collected, not to mention old tires, railroad ties and assorted other disgusting items. Winner of the Most Notable find – a train car brake assembly!

The South Carolina Department of Transportation (SCDOT) provides all of the necessary clean-up supplies such as vests and trash bags, and requires organizations to pick up the clean-up supplies. However, SCDOT picks up the collected litter bags left on the road-side on the Monday after the collection.

About South Carolina's DOT Adopt-a-Highway:

SC Department of Transportation's Adopt-A-Highway Program helps cultivate public commitment to keeping our highways clean and litter free by involving volunteer groups in roadside litter pickup. Individuals, civic, church, business, school and employee groups and organizations, have made the Adopt-A-Highway Program an effective tool in keeping South Carolina clean and beautiful. Contact your local Adopt-A-Highway Coordinator, or phone the statewide Adopt-A-Highway office toll free at 1-888-226-9694. Groups may also email to Adoptahighway@scdot.org or visit their website at www.scdot.org.

About eLifespaces:

Providing contracting, security and audio visual (AV) services over two decades, the company directors and technical practitioners hold multiple licenses and certifications in the construction, low voltage cabling, electronic, security (both fire & burglar), and electrical contracting. As Design & Installation Contractors, their goal is to make the technology in your lifespaces – intuitive, invisible, and incredible. Whether its videoconferencing, ISF® Video Calibration, THX® Certified room construction, HAA® acoustic calibration or any number of other specialized requirements, let their team of Industry Certified Professional Designers and Practitioners address your technology needs. eLifespaces holds many industry awards, the most recent of which was winner in the Consumer Electronics Associations 2009 Mark of Excellence Awards in multiple categories.
