[CHARLESTON, SC – 02/04/2009] Over 1,600 Charleston area students gathered this morning at James Island High School to meet with local business and discuss their career opportunities. Displaying iPhone control, IP cameras and invisible speakers, the electronic systems contractor, eLifespaces, fielded many questions about the emerging electronics industries.

"These students are very bright and many were well prepared for the Career Fair," said Ed Dopson, eLifespaces' Chief Programmer. "They were networking – and at such a young age! Many had done research on us. There were times when I felt like I was being interview – and that was incredibly refreshing!"

The event was organized by Wanda Horne, the Career Development Coordinator and held inside of the Gymnasium at the James Island High School.

**About eLifespaces**

Providing contracting, security and audio visual (A/V) services over two decades, the company directors and technical practitioners hold multiple licenses and certifications in the construction, low voltage cabling, electronic, security (both fire & burglar), and electrical contracting. As Design & Installation Contractors, their goal is to make the technology in your lifespaces – intuitive, invisible, and incredible. Whether its videoconferencing, ISF® Video Calibration, THX® Certified room construction, HAA® acoustic calibration or any number of other specialized requirements, let their team of Industry Certified Professional Designers and Practitioners address your technology needs. eLifespaces holds many industry awards, the most recent of which was winner in the Consumer Electronics Associations Mark of Excellence Awards in multiple categories. Find eLifespaces online at [www.elifespaces.com](http://www.elifespaces.com).
